

Direct Export of Web of Science to RefWorks

Firewalls, pop-up blockers and third-party toolbars may interfere with your ability to use RefWorks and/or Write-N-Cite.

Disable all pop-up blockers (check browser and any third-party toolbars you may have installed in your browser). Click here for [more information](#).

[Click here](#) for some vendor specific firewall configuration instructions.

Moving Records From a Single Search Results Page

1. **Select** the record(s) to move to RefWorks.
2. Scroll to the bottom of the page. Select the record(s) to include in the output (step 1).
3. Step 2 select radio button next to **Full Record**
4. Click **Save to RefWorks** (Step 3) to open the Processing Records page and to launch the export application.
5. If JavaScript is enabled on your machine, then the export process will automatically start. *Do not* close your browser or click the Return button until processing completes. If JavaScript is not enabled, click **Export** to proceed. Depending on the browser that you are using, a series of dialog boxes will appear. Follow the instructions to proceed.
6. When processing completes, the RefWorks Login page opens.
7. Enter your log in name and password to access your RefWorks account.

The screenshot shows a search results page with one record selected. A red arrow points to the checkbox next to the record title: "10. Title: Cocoa, Chocolate, and Cardiovascular Disease". Below the title, the author(s) "Galleano M, Oteiza PI, Fraga CG" and source "JOURNAL OF CARDIOVASCULAR PHARMACOLOGY Volume: 54 Issue: 6 Pages: 483-490 Published: DEC 2009" are visible. A "Get It!" button with a "ualberta" logo is present.

Below the record, the "Output Records" section is shown. It has three steps:

- Step 1: "Selected Records on page" (radio button selected), "All records on page", and "Records [] to []". A red arrow points to the "Selected Records on page" radio button.
- Step 2: "Authors, Title, Source" (radio button selected), "plus Abstract", "Full Record" (radio button selected), and "plus Cited Reference". A red arrow points to the "Full Record" radio button.
- Step 3: "How do I export to bibliographic management software?". It contains buttons for "Print", "E-mail", "Add to Marked List", "Save to EndNote Web", "Save to EndNote, RefMan, ProCite", "Save to RefWorks" (highlighted with a red arrow), and "Save to other Reference Software".

At the top of the "Output Records" section, there is a "Results: 59" and a "Show 10 per page" dropdown menu. At the bottom, there is a "Page 1 of 6" navigation bar with "Go" and "Sort" buttons.

Moving Records From Multiple Search Results Pages (Must use Add to Marked List Feature)

1. **Select** the record(s) to move to RefWorks.
2. Click on **Add to Marked List**.

The screenshot shows a search results page with one record selected. A red arrow points to the "Add to Marked List" button in the action bar above the record. The record title is "1. Title: Does Chocolate Intake During Pregnancy Reduce the Risks of Preeclampsia and Gestational Hypertension?". The author(s) are "Safilas AF, Triche EW, Beydoun H, et al." and the source is "ANNALS OF EPIDEMIOLOGY Volume: 20 Issue: 8 Pages: 584-591 Published: AUG 2010". A "Get It!" button with a "ualberta" logo is present.

At the top, there is a "Page 1 of 6" navigation bar with "Go" and "Sort" buttons.

3. Move to **next results page**, select records for exporting, and click on **Add to Marked List**.
4. Once you have moved through all the search results pages, click on **Marked List Tab** which is at the top of the screen.

5. Select the **fields** to include in the output (step 1). Consider the needs of the required citation style and any other requirements specified for paper submission.
6. Select **Save to RefWorks** as your export option (Step 2).
